Thirty-eight percent of jobs in the U.S. are at high risk of being replaced by [robots and artificial intelligence](#) over the next 15 years.

--Pricewaterhouse Coopers, March 2017

*Experts predict that robots will take over 30% of our jobs by 2025--and white-collar jobs aren't immune.*

--Business Insider, May 2015

**"Robots are likely to replace 50 percent of all jobs in the next decade. Artificial intelligence (AI) is the "singular thing that will be larger than all of human tech revolutions added together, including electricity, [the] industrial revolution, internet, mobile internet — because AI is pervasive."**

--Kai-Fu Lee, founder of Sinovation Ventures, top tech voice in China

# Summer Learning Gap

Johns Hopkins University- Research Article  
"Lasting Consequences of the  
Summer Learning Gap"

*"Some researchers suggest that what children do in the summer is one of the largest factors determining how well they do in school compared to their peers. Many students experience a summer skills loss that has a cumulative effect on their achievement every year, and it contributes significantly to the large achievement gaps that are seen in high school."*

### Action Steps

1. Ask students "what are you interested in lately?" rather than "what do you want to be?" Ask them what the next step is to pursue their interest farther? How can you help?
2. Have career days, but ask your speakers to discuss their **journey, not just their destination**.
3. **Promote curiosity** in your classroom, and carve out time for independent studies.
